## Special Abbreviation

**ssk (slip, slip, knit) =** slip next two stitches knitwise to right needle, insert point of left needle through front of sts, knit these sts together - 1 st dec.

## Special Techniques

**Cable Cast On =** Turn work so stitches are on left needle, \*insert needle between first and 2nd stitch on left needle, wrap and draw loop through (as if making a knit st), slip the new stitch back onto the left needle; repeat from \* until the desired number of stitches have been cast-on.

**Three-Needle Bind Off:** Place the live sts for both sides of the shoulder onto a needle. You will have an equal number of sts on both needles. Hold needles parallel with wrong sides together in your left hand. Take a third needle in your right hand and \* insert it knitwise into the first stitch on the needle closest to you and at the same time knitwise into the first stitch on the back needle. Wrap as for a knit stitch and draw the working yarn through both stitches to make one stitch, which is now on the right hand needle.\* Repeat from \* to \* so that there are now two stitches on the right hand needle. Using the tip of one of the needles in your left hand, lift the first stitch worked over the second stitch worked to bind off.

## Note
